MOTION FOR AMENDED COMPLAINT

Plaintiff requests permission from the Court to amend the Complaint with the attached submission.

Plaintiff apologizes for the delay however unfortunately, the company printing 40 copies of our original Complaint made errors by merging parts of a previous obsolete document which also used different letters 0, A,B,C and not A,B,C,D and thereby placed some defendants into incorrect groups and incorrect offences were listed. Plaintiff regrets the inconvenience that caused an unknown number of the defendants.

This being the first District Court case for the pro se defendant, he initially attempted to have marshals serve the summons but was told by the marshal that there was only one marshal and that it was also not the preferred method. Plaintiff then took great care to have someone else file the documents on priority mail and receiving a signature upon receipt by each defendant. Even this was quite expensive as the cost for each of two defendants in far east was 80 dollars.

He has since learned that certified mail delivery was called for and will do that upon receiving permission from the court to send the amended complaint.

Plaintiff edited the earlier document for typing errors and made any modification that will better present the many vitally important issues and this has been challenging as so much new ground has been covered and parts as history of the computer world and the world have recently been rewritten as a result of this invention.

National Geographic invited Carla Hayden, the United States Librarian of Congress, to select the top 10 inventions in history for changing the world (which are quoted in the submission), and plaintiff's invention of the PC was ranked 4th in the world and was published in the June, 2017 edition of National Geographic's publication.

Plaintiff emailed the summons to the court earlier, and he personally delivered the amended complaint to the court on Monday November 25, 2019, and will deliver the amended complaint to the court on Wednesday, November 27, 2019.

Yours Truly,

Mers Kutt, C.M., B.A.
